info@kbe-elektrotechnik.com • www.kbe-elektrotechnik.com**Datenblatt Gebinde: 403 Sperrholzspule**

The image shows two technical drawings of a wooden spool. The top drawing is a side view showing the spool's profile with dimensions: a top flange width of 57 mm, a central core diameter of 141 mm, and an overall height of 405 mm. The length of the spool is shown as 425 mm between the flanges and 440 mm overall. The bottom drawing is a front view showing the spool's circular faces with the same dimensions: 141 mm diameter, 405 mm height, 425 mm length between flanges, and 440 mm overall length.	Bezeichnung:	402 Sperrholzspule
	Typ:	Einweg-Gebinde
	Material:	Sperrholz
	Außenmaße:	B405 x D440 mm Wickelkern D125 mm
	Eigengewicht:	2,5 kg
	Tragkraft:	ca. 80 kg
	Pro Europalette:	6 Stück
	Stapelbarkeit:	nein
	Leistungsquerschnitt:	ca. 2,5 bis ca. 16 mm ² (Solarleitungen)
