

PPWR Declaration - Regulation (EU) 2025/40 Packaging Compliance for Cable Products

Declaration

We hereby confirm that the packaging used for the delivery of **cable products and related materials** is designed in accordance with the principles of **Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR)**.

Our packaging systems are designed to:

- minimize the amount of packaging material used
- ensure that packaging materials are **recyclable**
- promote **reusable transport packaging systems**
- support circular economy principles within the supply chain

Typical Packaging Used for Cable Deliveries

Packaging Category	Description	Material	Reusable	Recyclable
Sales Packaging	Reusable cable spools	Plastic	Yes	Yes
Sales Packaging	Single-use-cable drums for solar cables	Wood/ Cardboard	No	Yes
Sales Packaging	Cable rings fixed with cable tie	PE / PP	No	Yes

Cable drums and pallets are used as **reusable packaging systems wherever possible** and are part of established return or reuse cycles.

For solar cable deliveries, single-use wooden drums with cardboard cores are used.

These drums are designed for **material recycling and easy separation of components**.

Packaging Design Principles

The packaging systems used for cable deliveries are designed to:

- protect cable products during **transport and storage**
- enable **multiple reuse cycles** for drums and pallets
- ensure **material separation and recycling**
- avoid unnecessary packaging materials
